## АПвЭоВ(к)-20 3x120 ТУ У 31.3-00214534-017-2003

Three-core power cables with aluminium conductors, with XLPE, collective screen and PVC compound outer sheath

Technical cable requirements correspond to IEC 60502-2

Cables are used for laying:

- in premises, tunnels, ducts, mines, dry soil and outdoor under shelter
- · single laying

It is possible to manufacture cables with an integrated fiber-optic module.

Order entry example:

АПвЭоВ(к)-20 3x120/50 (ОМ) ТУ У 31.3-00214534-017-2003

In conjunction with the DTS system, the integrated fiber-optic module can act as a distributed cable line temperature sensor.

It is possible to manufacture cable with sealed conductors.

Order entry example:

АПвЭоВ(к)-20 3х120/50 (г) ТУ У 31.3-00214534-017-2003

Fire safety code in accordance with ДСТУ 4809:2007: ΠБ100000000

Products of this mark meet the requirements:

· single wire cable flame retardance

### **TECHNICAL SPECIFICATIONS**

| Rated voltage   | kV    | 20                   |
|---|-------|----------------------|
| Maximum voltage   | kV    | 24                   |
| Number and rated area of conductors                         | mm²   | 3 x 120              |
| Insulation thikness   | mm    | 5.5                  |
| Minimum screen cross-section                                | mm²   | 50                   |
| Permissible short circuit current across the screen of      | kA    | 10.2                 |
| minimum cross-section                                       |       |                      |
| Maximum permissible short-circuit current in core           | kA    | 11.3                 |
| Permissible continious current rating *                     |       |                      |
| by aerial laying  | Α     | 273                  |
| • by burial   | Α     | 232                  |
| Partial discharge factor for rated voltage, not more than   | рС    | 6                    |
| Maximum permissible conductor temperature                   |       |                      |
| Continious  | °C    | +90                  |
| in emergency operation                                      | °C    | +130                 |
| at short circuit  | °C    | +250                 |
| Operating temperature range (in climate version NF)         | ° C   | -50 +50              |
| Operating temperature range (in climate version T)          | °C    | -25 +65              |
| Minimum bending radius by laying                            | mm    | 1072                 |
| Rated outer diameter of the cable (for reference) **        | mm    | 67                   |
| Cable weight (approximate)                                  | kg/km | 5360                 |
| Rated factory cable length and gross weight of the delivery | m, t  | # 22УД-60: 339 • 2.7 |
| on the drums ***  |       | # 25УД-90: 611 • 4.8 |
| Notae   |       |                      |

#### Notes:

When ordering it is neccesary to agree the factory length of the product with the manufacturer

<sup>\*</sup> Long permissible current loads are calculated for the following conditions: conductor temperature 90 °C, air temperature 30 °C, soil temperature 20 °C, load factor 1.0, thermal resistivity of soil 1.5 °K • m/W, laying depth in the ground 0.8 m, shields are grounded at both ends of the line

<sup>\*\*</sup> The external diameter may differ from the rated up to  $\pm$  10 %

<sup>\*\*\*</sup> Отклонение фактической массы брутто от указанного значения может составлять ± 7 %

# АПвЭоВ(к)-20 3x120 ТУ У 31.3-00214534-017-2003

Three-core power cables with aluminium conductors, with XLPE, collective screen and PVC compound outer sheath

### **CONSTRUCTION**

- 1. Aluminium multiwire compacted conductor
- It is possible to manufacture cable with a single-wire conductor
- · It is possible to manufacture cable with sealed conductors.
- 2. Inner extruded semiconducting layer
- 3. XLPE insulation
- 4. Outer extruded semiconducting layer
- 5. Lapping layer of semiconductive swellable tape
- 6. Interstitial filler with polypropylene bundles
- 7. Lapping layer of semiconductive swellable tape
- 8. Copper screen
- 9. Lapping layer of synthetic paper
- 10. PVC compound outer sheath

Note: Conductor twisting is not illustrated
