

## ААБ2лШв 3x120(ож)-1 ТУ У 27.3-00214534-091:2017

Power cables with aluminium conductors, with impregnated paper insulation, aluminium-sheathed, steel-tape armoured, with PVC-compound protection hose

Cables are used for laying:

- in soil (trenches) with high corrosiveness without vagabond currents
- in dry premises (tunnels), ducts, cable cellars, mines, collectors, industrial and other premises, including damp, partially flooded premises, environment with medium and high corrosiveness
- on technological trestles
- in mines, non-hazardous as for gas and dust
- with a risk of mechanical damage and no tensile forces in operation

Fire safety code in accordance with ДСТУ 4809:2007: ПБ100000000

Products of this mark meet the requirements:

- single wire cable flame retardance

### TECHNICAL SPECIFICATIONS

|  |                 |                                     |
|--|-----------------|-------------------------------------|
| Rated voltage  | kV              | 1                                   |
| Number and rated area of conductors  | mm <sup>2</sup> | 3 x 120                             |
| Insulation thickness between conductors                                      | mm              | 1.7                                 |
| Insulation thickness of conductor-sheath                                     | mm              | 1.45                                |
| Sheath thickness   | mm              | 1.35                                |
| Permissible continuous current rating *                                      |                 |                                     |
| • by aerial laying   | A               | 261                                 |
| • by burial  | A               | 248                                 |
| Operating temperature range  | °C              | -50 ... +50                         |
| Minimum bending radius by laying   | mm              | 1050                                |
| Level difference along the laying route, not more than                       | m               | 25                                  |
| Metal sheath outer diameter (for reference only)                             | mm              | 29                                  |
| Rated outer diameter of the cable (for reference) **                         | mm              | 42                                  |
| Cable weight (approximate)   | kg/km           | 2860                                |
| Rated factory cable length and gross weight of the delivery on the drums *** | m, t            | # 16a: 570 • 1.9<br># 18: 660 • 2.3 |

Notes:

When ordering it is necessary to agree the factory length of the product with the manufacturer

\* Long permissible current loads are calculated for the following conditions: air temperature plus 25 °C, soil temperature plus 15 °C, thermal resistivity of soil 1.2 °K·m/W, laying depth in the soil 0.7 m

\*\* The external diameter may differ from the rated up to ± 10 %

## ААБ2лШв 3х120(ож)-1 ТУ У 27.3-00214534-091:2017

Power cables with aluminium conductors, with impregnated paper insulation, aluminium-sheathed, steel-tape armoured, with PVC-compound protection hose

### CONSTRUCTION

1. Aluminium conductor
2. Impregnated paper insulation
3. Belt insulation
4. Aluminium sheath
5. Double-layer plastic-tape bedding
6. Double steel-tape armour
7. Pressed PVC compound protection hose

Note: Conductor twisting is not illustrated
