

## АСБ2л 4x120(ож)-1 ТУ У 27.3-00214534-091:2017

Power cables with aluminium conductors, with impregnated paper insulation, lead-sheathed, steel-tape armoured

Cables are used for laying:

- *in soil (trenches) with high corrosiveness, as well as with vagabond currents*
- *with a risk of mechanical damage and no tensile forces in operation*

### TECHNICAL SPECIFICATIONS

|  |                 |                                     |
|--|-----------------|-------------------------------------|
| Rated voltage  | kV              | 1                                   |
| Number and rated area of conductors                                      | mm <sup>2</sup> | 4 x 120                             |
| Insulation thickness between conductors                                  | mm              | 1.7                                 |
| Insulation thickness of conductor-sheath                                 | mm              | 1.45                                |
| Sheath thickness   | mm              | 1.42                                |
| Permissible continuous current rating *                                  |                 |                                     |
| • <i>by aerial laying</i>  | A               | 243                                 |
| • <i>by burial</i>   | A               | 231                                 |
| Operating temperature range  | °C              | -50 ... +50                         |
| Minimum bending radius by laying   | mm              | 690                                 |
| Level difference along the laying rout, not more than                    | m               | 25                                  |
| Metal sheath outer diameter (for reference only)                         | mm              | 35                                  |
| Rated outer diameter of the cable (for reference) **                     | mm              | 46                                  |
| Cable weight (approximate)   | kg/km           | 4700                                |
| Rated factory cable length and gross weight of the delivery on the drums | m, t            | # 16a: 480 • 2.5<br># 18: 550 • 3.0 |

Notes:

*When ordering it is necessary to agree the factory length of the product with the manufacturer*

\* *Long permissible current loads are calculated during operation in four-wire networks with load in all the conductors for the following conditions: air temperature plus 25 °C, soil temperature plus 15 °C, thermal resistivity of soil 1.2 °K·m/W, laying depth in the soil 0.7 m*

\*\* *The external diameter may differ from the rated up to ± 10 %*

## АСБ2л 4x120(ож)-1 ТУ У 27.3-00214534-091:2017

Power cables with aluminium conductors, with impregnated paper insulation, lead-sheathed, steel-tape armoured

### CONSTRUCTION

1. Aluminium conductor
2. Impregnated paper insulation
3. Belt insulation
4. Lead sheath
5. Double-layer plastic-tape bedding
6. Double steel-tape armour
7. Outer covering

Note: Conductor twisting is not illustrated
