

## ВКБШвнг 3х1.5-1 ТУ У 31.3-00214534-057:2007

Power cables with copper conductors, with PVC-compound insulation, galvanized steel-wire armoured, with low-flammable PVC-compound protection hose

Cables are used for laying:

- *in bunches*
- *in premises, dry ducts and tunnels, in corrosive environment*
- *in places, where small mechanical impacts on cable are possible, including tensile forces*

It is possible manufacturing of cables in cold-resistant performance (ВКБШвнг-ХЛ)

It is possible manufacturing of cables of low fire risk (ВКБШнгд), including fire-resistant (ВКБШнгд-FR) and cold-resistant (ВКБШнгд-ХЛ)

It is possible manufacturing of cables with polymer compound sheath, halogen-free (ВКБПнг-НФ), including fire-resistant (ВКБПнг-FRHF)

Fire safety code in accordance with ДСТУ 4809:2007: ПБ120000000

Products of this mark meet the requirements:

- *single wire cable flame retardance*
- *bunched cable flame retardance category A*

### TECHNICAL SPECIFICATIONS

|  |                 |                  |
|--|-----------------|------------------|
| Rated voltage  | kV              | 1                |
| Number and rated area of conductors  | mm <sup>2</sup> | 3 x 1.5          |
| Phase insulation thickness   | mm              | 0.8              |
| Aarmor wire diameter   | mm              | 0.3              |
| Permissible continious current rating (AC of industrial frequency) *         |                 |                  |
| • <i>by aerial laying</i>  | A               | 21               |
| • <i>by burial</i>   | A               | 27               |
| Maximum permissible conductor temperature                                    |                 |                  |
| • <i>Continuous</i>  | °C              | +70              |
| • <i>in emergency operation</i>  | °C              | +80              |
| • <i>at short circuit</i>  | °C              | +160             |
| Operating temperature range  | °C              | -40 ... +50      |
| Minimum bending radius by laying   | mm              | 90               |
| Rated outer diameter of the cable (for reference) **                         | mm              | 12               |
| Cable weight (approximate)   | kg/km           | 230              |
| Rated factory cable length and gross weight of the delivery on the drums *** | m, t            | # 10: 1650 • 0.5 |

Notes:

When ordering it is necessary to agree the factory length of the product with the manufacturer

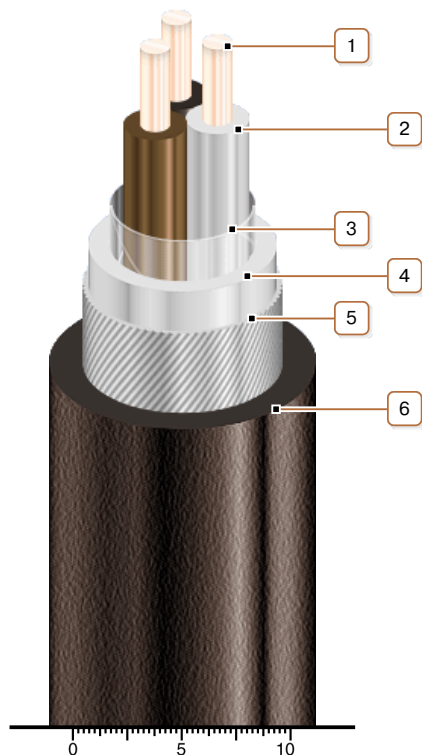

\* Long permissible current loads are calculated for the following conditions: air temperature plus 25 °C, soil temperature plus 15 °C, thermal resistivity of soil 1.2 °K·m/W, laying depth in the soil 0.7 m

\*\* The external diameter may differ from the rated up to ± 10 %

## **ВК6Швнг 3х1.5-1** **ТУ У 31.3-00214534-057:2007**

Power cables with copper conductors, with PVC-compound insulation, galvanized steel-wire armoured, with low-flammable PVC-compound protection hose

### **CONSTRUCTION**

1. Copper conductor
2. PVC compound insulation
3. PET film winding
4. PVC compound belt insulation
5. Round galvanized steel-wire armour
6. Pressed off low-flammable PVC compound protection hose

*Note: Conductor twisting is not illustrated*
