# NYY-O 1x25 RM-0.6/1 DIN VDE 0276-603

Power cables with copper conductors, with PVC-compound insulation, with PVC-compound outer sheath

Cables are used for laying:

- · single laying
- · in premises, dry ducts and tunnels, in corrosive environment

Fire safety code in accordance with ДСТУ 4809:2007: ПБ100000000

Products of this mark meet the requirements:

· single wire cable flame retardance

## **TECHNICAL SPECIFICATIONS**

| Rated voltage                                                      | kV    | 1                |
|--------------------------------------------------------------------|-------|------------------|
| Number and rated area of conductors                                | mm²   | 1 x 25           |
| Phase insulation thikness                                          | mm    | 1.2              |
| Permissible continious current rating (AC of industrial frequency) | ) *   |                  |
| · by aerial laying                                                 | Α     | 121              |
| • by burial                                                        | Α     | 137              |
| Permissible continious current rating (DC) *                       |       |                  |
| by aerial laying                                                   | Α     | 153              |
| • by burial                                                        | Α     | 207              |
| Maximum permissible conductor temperature                          |       |                  |
| Continious                                                         | °C    | +70              |
| in emergency operation                                             | °C    | +90              |
| at short circuit                                                   | °C    | +160             |
| Operating temperature range                                        | °C    | -50 +50          |
| Minimum bending radius by laying                                   | mm    | 120              |
| Rated outer diameter of the cable (for reference) **               | mm    | 12               |
| Cable weight (approximate)                                         | kg/km | 350              |
| Rated factory cable length and gross weight of the delivery        | m, t  | # 10: 1650 • 0.7 |
| on the drums ***                                                   |       |                  |

### Notes:

When ordering it is neccesary to agree the factory length of the product with the manufacturer

<sup>\*</sup> Long permissible current loads are calculated for the following conditions: air temperature plus 25 °C, soil temperature plus 15 °C, thermal resistivity of soil 1.2 °K • m/W, laying depth in the soil 0.7 m

<sup>\*\*</sup> The external diameter may differ from the rated up to  $\pm$  10 %

# NYY-O 1x25 RM-0.6/1 DIN VDE 0276-603

Power cables with copper conductors, with PVC-compound insulation, with PVC-compound outer sheath

## **CONSTRUCTION**

- 1. Copper multiwire conductor
- 2. PVC compound insulation
- 3. PVC compound outer sheath
