# СБЗПАуБпШп 27х2х1 ТУ У 31.3-00214534-008-2001

Signal blocking cables with copper conductors, with polyethylene insulation, with water-blocking core filling, in reinforced aluminium sheath, with double-steel-tape armouring, in polyethylene hose

Designed for electrical installations of railway signaling, centralization, blocking and automation at a rated voltage of 380 V AC at frequency 50 Hz or 700 V DC

Cables are used for laying:

- in soil
- in conditions of excessive humidity
- for increased protection of circuits against external electrical influences
- in places, where small mechanical impacts on cable are possible, including tensile forces

### **TECHNICAL SPECIFICATIONS**

| Rated voltage   | V               | 380 / 700         |
|---|-----------------|-------------------|
| Number of pairs and nominal conductor diameter                  |                 | 27 x 1            |
| Electrical resistance of the conductor at 20 °C                 | Ohm/km          | 28.8              |
| Operating capacity, not more than                               | nF/km           | 100.0             |
| Attenuation coefficient of pairs at a temperature of 20 °C, not | dB/km           | 0.94              |
| more than   |                 |                   |
| Coupling losses on near-end of cable between any pairs over a   | length of 300 m | n, not less than: |
| for 100% of the values  | dB              | 60.0              |
| for 80% of the values   | dB              | 62.0              |
| Protective action coefficient of aluminium sheath at            |                 | 0.1               |
| longitudinal EMF of 30 V/ km, not more than:                    |                 |                   |
| Operating temperature range                                     | °C              | -50 +60           |
| Minimum bending radius by laying                                | mm              | 468               |
| Cable outer diameter (for reference only) **                    | mm              | 39                |
| Cable weight (approximate)                                      | kg/km           | 2013              |
| Rated factory cable length and gross weight of the delivery     | m, t            | # 16a: 630 • 1.5  |
| on the drums ***  |                 |                   |
| Notes:  |                 |                   |

When ordering it is neccesary to agree the factory length of the product with the manufacturer

\*\* The external diameter may differ from the rated up to  $\pm$  10 %

## СБЗПАуБпШп 27x2x1 ТУ У 31.3-00214534-008-2001

Signal blocking cables with copper conductors, with polyethylene insulation, with water-blocking core filling, in reinforced aluminium sheath, with double-steel-tape armouring, in polyethylene hose

#### **CONSTRUCTION**

- 1. Copper conductor
- 2. Polyethylene insulation
- 3. PET film lapping with water-blocking filling
- 4. Polyethylene inner sheath
- 5. Paper core wrapping
- 6. Strengthened aluminium sheath
- 7. Pressed polyethylene bedding
- 8. Double steel-tape armour
- 9. Bitumen layer
- 10. Polyethylene protection hose

Note: Pair twisting in the layer of core on the picture not shown.
