

## PTM 3x10 TY Y 31.3-00214534-024-2004

### Copper heat-resistant hook-up wires

Designed for installation of control and power circuits for electroguns and percussion-drilling machines in metal industry

Manufacturing of wires in tropical version is possible

### TECHNICAL SPECIFICATIONS

|  |                 |            |
|--|-----------------|------------|
| Rated voltage  | kV              | 0.66       |
| Number and rated area of conductors                  | mm <sup>2</sup> | 3 x 10     |
| Heat-resistance class                                |                 | H (180 °C) |
| Minimum permissible environment temperature          | °C              | -60        |
| Rated outer diameter of the cable (for reference) ** | mm              | 19.15      |

Notes:

\*\* The external diameter may differ from the rated up to  $\pm 10\%$

### CONSTRUCTION

1. Copper multiwire conductor
2. Glass-thread winding with silicone enamel pasting and impregnation
3. Varnished glass cloth winding
4. Glass-tape winding
5. Asbestos cord
6. Varnished glass cloth belt insulation
7. Glass-tape winding
8. Glass-thread braid
