

**МКЭШ 2x1** 

# **FOCT 10348-80**

# Multicore plastic-insulated wiring cables

### Used:

- · for industrial signal transmission lines for control, monitoring, signaling, regulation of electronic equipment and devices
- · for industrial data transmission networks
- · for inter-device installation of electrical installations

Cables are resistant to vibration and impact loads, to relative humidity of air up to 98% at temperatures up to 35 °C

It is possible to manufacture cables with a different number and nominal cross-section of wires, pair twisted cables, as well as fire-safe and halogen-free cables according to specifications of PJSC YUZHCABLE WORKS

## **TECHNICAL SPECIFICATIONS**

Rated AC voltage up to 400 Hz	V	500
Rated DC voltage	V	750
Number and rated diameter of conductors	mm²	2 x 1
Class of core flexibility		2
Ambient operating temperature	°C	-50 +50
Permissible continious conductors temperature	°C	+70
Cable outer diameter (for reference only) **	mm	8
Cable weight (approximate)	kg/km	101.4
Minimal service life	years	15

### Notes:

When ordering it is neccesary to agree the factory length of the product with the manufacturer

# 2 3 5

### CONSTRUCTION

- 1. Tin coated copper multiwire current-carrying conductor
- 2. PVC compound insulation
- 3. Wrapping the core with polyethylene terephthalate film
- 4. Screen copper wires braid
- 5. PVC compound outer sheath

<sup>\*\*</sup> The external diameter may differ from the rated up to  $\pm$  10 %
