МКЭШ 5x1 ГОСТ 10348-80

Multicore plastic-insulated wiring cables

Used:

- for industrial signal transmission lines for control, monitoring, signaling, regulation of electronic equipment and devices
- · for industrial data transmission networks
- · for inter-device installation of electrical installations

Cables are resistant to vibration and impact loads, to relative humidity of air up to 98% at temperatures up to 35 $^{\circ}\text{C}$

It is possible to manufacture cables with a different number and nominal cross-section of wires, pair twisted cables, as well as fire-safe and halogen-free cables according to specifications of PJSC YUZHCABLE WORKS
